

## A MESSAGE FROM THE MEDIA TECHNICIAN

On behalf of the Media team, Merry Christmas! This month's media update is unique for a few reasons. The first difference is its early arrival! Most, if not all of us, will be enjoying the holiday break with our family and friends around the time that these updates usually go out so I figured I would send it early! The second (more important) difference is that we don't have any media updates! To make up for the lack of videos, I have created **6 free phone backgrounds** using some of my favorite Christmas verses, lyrics, and movie quotes for you to download- Just follow the instructions below!

Before the year comes to a close, I would like to say a huge thank you to all whom I got to work with this past semester. I always love looking back on the innovative, creative, interesting messages we are able to communicate through video and design! I look forward to seeing you all next year!
